What Is Prostate Massage?

Thank you for being interested in learning more about prostate massage. Prostate massage can be your key to experiencing the most intense and long lasting orgasms you can imagine. As well, prostate massage can help many men with a variety of sexual dysfunction and sexual performance issues. Below are just a few benefits of prostate massage:

- Prostate massage has the ability to produce a prostate orgasm. A prostate orgasm is much more intense and longer lasting than a typical male penile orgasm. A good prostate orgasm can be up to 100 percent stronger, and in some cases last 2-3 minutes. A typical male penile orgasm lasts under 30 seconds.
- Prostate massage has the ability to increase the volume, quantity and taste quality of your ejaculation. A prostate massage generally has the ability to release a much larger amount of fluid as you are flushing out the prostate of old prostatic fluid, semen and seminal fluid than a typical penile ejaculation never has the opportunity to do. A prostate massage can cause you to release up to 4 times the amount of fluid a typical penile orgasm can.
- Prostate massage has been used by many medical practitioners over the last 30 years to improve prostate health and to relieve painful prostate problems due to its ability to flush out the prostate of fluid build up and improve blood flow and circulation to the prostate.
- Because of all of the benefits of a prostate massage with bringing an increase of blood flow and circulation to your genital and prostate area it is also beneficial to improve your penile hardness, and increasing the duration of your erections. Many men say that a prostate massage works much better

than any penis sexual enhancement pill, either natural or prescribed by a doctor because you have no harmful side effects with a prostate massage.

As well, many men want to make their prostate massage as easy and effective as possible hence the popularity of prostate massagers such as the famous Aneros. Check out our online prostate massager store that contains over 25 of the top prostate massagers available at our web store below:

The 5 Most Common Questions About Prostate Massage

Many men unfamiliar with prostate massage have LOTS of questions. Information on the Internet is often wrong, vague or just doesn't answer anything for you. Below, you will find the top 5 questions and answers that our readers and customers ask about prostate massage:

Q. Is Prostate Massage Painful?

A. No, if done correctly, a prostate massage will cause no pain.

Q. Is Prostate Massage Hard To Learn?

A. No, with the proper techniques, you can learn the basics of prostate massage usually in under 30 minutes.

Q. Am I Gay If I Enjoy Prostate Massage?

A. Absolutely not! Prostate massage does involve anal penetration but remember your sexual pleasures does not define who you are its just what you do to enjoy yourself.

Q. How Do I Perform A Prostate Massage On Myself?

A. A prostate massage is done by inserting a finger or prostate massager into the anus. For most men, penetration of approximately 3 inches is required however some men may require more or less. Then your job is to find the prostate and gently stimulate it with pressure no greater than how you would rub your eye. For some men it may take only a few minutes to achieve a prostate orgasm from this stimulation, others it may take longer, it all depends on you. This is the basics of prostate massage however you would be advised to learn the complete prostate massage techniques before attempting stimulating your prostate.

As well, many men want to make their prostate massage as easy and effective as possible hence the popularity of prostate massagers such as the famous Aneros.

Q. Where Can I Find Reliable Information To Learn About The Proper Prostate Massage Techniques?

Your First Prostate Orgasm-What To Expect

As we discussed previously, men are learning about how to stimulate their prostate by prostate massage to produce a prostate orgasm.

Prostate orgasms are much more intense (many men report them to be at least 50 to 100 percent stronger) AND may last up to 2 to 3 minutes in some cases. Can you imagine having such a fantastic orgasm as this, with out even touching your penis??

You can also combine penis stimulation with your prostate massage to take things to an even higher level!

Men experience a variety of sensations when achieving their prostate orgasm. Here is some common feedback we here from our customers:

-“The prostate orgasm rocked my world-I never thought an orgasm could feel this way”

-“No exaggeration-it was CRAZY strong and lasted forever!:

-“I now make more noise than my girlfriend when I have an orgasm-its that good!”

Medically speaking, your prostate is the equivalent to your “g-spot” or some people are calling it the “p-spot”.

One important tip is that while performing your prostate massage, the pleasure sensations can either suddenly or build up with improving levels of pleasure. As your prostate is very sensitive, you must take care that you do not over stimulate it during the prostate massage by apply to much pressure.

This can result in a sore prostate for a few days so its important to learn the proper techniques as outlined in the Ultimate Male Orgasm E-Book available at www.ultimatemaleorgasm.com
